Aim:

To design and develop a responsive product landing page using HTML5 and CSS3, incorporating Flexbox, Grid, CSS variables, hover transitions, and a dark/light mode toggle without using JavaScript.

Procedure:

1. Create the basic HTML5 structure using html, head, and body tags.
2. Apply CSS styles for the background, text, colors, spacing, and fonts.
3. Create a header with the AERON logo and navigation links for Home, Products, Features, and Contact using Flexbox.
4. Design the hero section with product details, price, a CSS-made laptop illustration, and an Explore Products button using CSS Grid.
5. Create four feature cards describing the product's benefits.
6. Create three related product cards for earbuds, a smartwatch, and a speaker.
7. Implement dark/light mode using a checkbox, CSS selectors, and CSS variables without JavaScript.
8. Add hover effects and transitions to improve the webpage's appearance.
9. Use media queries to make the webpage responsive on desktop, tablet, and mobile screens.
10. Add a contact section and footer to complete the webpage.

Code:

```
<!DOCTYPE html>

<html lang="en">

<head>

<meta charset="UTF-8">

<meta name="viewport" content="width=device-width, initial-scale=1.0">

<title>AERON Product Page</title>

<style>

/* Basic settings */
```

```
* {
box-sizing: border-box;
margin: 0;
padding: 0;
}

/* Light theme colors */
.site {
--bg: #f4f5ef;
--text: #20231f;
--card: #ffffff;
--accent: #c9f36b;

background: var(--bg);
color: var(--text);
font-family: Arial, sans-serif;
line-height: 1.6;
min-height: 100vh;
transition: background 0.3s, color 0.3s;
}

/* Dark theme */
#dark-mode:checked ~ .site {
--bg: #1c201b;
--text: #f4f5ef;
--card: #2a3028;
}

/* Hide checkbox */
```

```
#dark-mode {
position: absolute;
left: -9999px;
}

/* Header and navigation using Flexbox */
header {
display: flex;
justify-content: space-between;
align-items: center;
flex-wrap: wrap;
gap: 15px;
padding: 20px 8%;
border-bottom: 1px solid #8885;
}

.logo {
color: var(--text);
font-size: 24px;
font-weight: bold;
text-decoration: none;
}

nav {
display: flex;
align-items: center;
flex-wrap: wrap;
gap: 16px;
}
```

```

Output screenshot:

Result:

A responsive AERON product landing page was successfully designed using HTML5 and CSS3. The webpage includes navigation links, product details, four feature cards, three related product cards, a dark/light mode toggle, hover effects, and a responsive layout without using JavaScript.
